

Professional Memberships within Corporate Membership Benefits - Terms and Conditions

- The number of Professional Memberships included within the Corporate Membership benefits correspond to the selected Corporate Membership level. (**Corporate Bronze = 0; Corporate Silver = 3; Corporate Gold = 5**).
- The included Professional Memberships are valid for as long as Corporate Membership is held by the organisation.
- The individuals nominated for Professional Membership must be **new** Professional Members to the Institute. They must not currently be a Professional Member, nor have ever held Professional Member status with AIM WA.
- Corporate Members can allocate the Professional Memberships to anyone employed by the organisation within the above criteria.
- Nominated individuals must apply for Professional Membership using the online Professional Member application and quoting the promotion code supplied. These applications are reviewed by the AIM WA grading committee and assessed for eligibility.
- The Professional Memberships are non-transferrable. They are allocated to the nominated individuals on an ongoing basis and will remain in place as long as the individual remains employed by the organisation, and the organisation maintains its Corporate Membership status at an appropriate level.
- If a nominated individual leaves the organisation, the Corporate Member must notify AIM WA and may nominate a replacement to receive the Professional Membership. The new recipient must complete the Professional Member application form for grading.
- Should a Corporate Member resign their Membership, or reduce their level of Corporate Membership, the Professional Memberships included also lapse, or reduce in number accordingly. In the case of a Corporate Membership level reduction, the organisation must advise AIM WA which Professional Memberships are to be retained. Those individuals whose Professional Memberships are to be removed, can choose to continue their Professional Membership independently and will be invoiced for the coming 12 month subscription.
- Corporate Members should obtain permission by staff nominated for Professional Membership, to verify details such as the individual's role, employment status and membership status to AIM WA.
- Blended Learning Premium Program Professional Membership extensions do not apply to Professional Members who are part of this Corporate Membership package.
