

WE WILL BE DISCUSSING:
FACTFULNESS

TEN REASONS WE'RE WRONG ABOUT THE WORLD -
AND WHY THINGS ARE BETTER THAN YOU THINK

BY HANS ROSLING

'Factfulness' is about the ten instincts that distort our perspective of the world and prevent us from seeing how it actually is.

Hans Rosling tells the story of the secret silent miracle of human progress as only he can. He also explains *why* progress is so often secret and silent and teaches readers how to see it clearly.

It turns out that the world, for all its imperfections, is in a much better state than we might think. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most.

Inspiring and revelatory, filled with lively anecdotes and moving stories, *Factfulness* is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future.

'A hopeful book about the potential for human progress when we work off facts rather than our inherent biases' - Barack Obama.
